

((استمارة اخلاقيات البحث العلمي))

This form is designed in alignment with the principles of the Committee on Publication Ethics (COPE). It should be completed and signed by researchers conducting studies involving human participants to ensure ethical compliance, integrity, and the protection of participants' rights and welfare. (<https://publicationethics.org/guidance?f%5B0%5D=type%3A21>)

1. Research Project Information

Project Title: _____
Principal Investigator: _____
Department/Institution: _____
Email/Phone: _____
Proposed Start Date: _____
Expected End Date: _____

2. Study Description

Provide a brief description of the research, including objectives, methodology, and expected outcomes:

3. Participant Information

Estimated Number of Participants: _____
Inclusion Criteria: _____
Exclusion Criteria: _____
Age Range of Participants: _____
Recruitment Method: _____

4. Informed Consent

Attach a copy of the informed consent form. Ensure that participants are fully informed about the study's purpose, procedures, risks, and benefits, and that they can withdraw at any time without penalty.

5. Risk Assessment

Describe any potential risks to participants and how they will be minimized:

6. Confidentiality and Data Protection

Explain how participant confidentiality will be maintained, how data will be stored, and who will have access to it. Confirm compliance with COPE standards and relevant national data protection laws.

7. Benefits of the Study

Describe the potential benefits for participants, society, or scientific knowledge:

8. Ethical Approval Statement

I confirm that this study will be conducted in accordance with ethical principles, COPE guidelines, and institutional policies. All participants' rights and dignity will be respected.

9. Signatures

Principal Investigator: _____ Date: _____
Department Chair/Head: _____ Date: _____
Ethics Committee Approval: _____ Date: _____
