

## Structure of First stage Curriculum

During the first stage you will have 5 basic sciences (Anatomy I , Medical Physic , Medical chemistry , Medical biology , Medical terminology ) , with E-learning , Arabic , Sport , Human right and Democracy , that will go through the whole academic year, during the annual year (first semester and second semester ) .

The table below shows the subjects , their total hours, number of lectures, small group learning sessions , practical hours and total credits for each subjects in annual year assessment (semester I and II ) .
